Sir,

Sub - Compost Manufacture

I have the honour to enclose herewith a copy of letter No B C 1135-36, dated 5th January 1948, of the Bio-Chemist, Compost Scheme addressed to the Deputy Commissioner, Kolar District, Kolar and to request that the President, Town Municipality, Kolar and also ~~to~~ the other ~~Prisons~~ Presidents may kindly be informed of the desire of the Government to take up compost manufacture, in view of the present scarcity of the manure in the State

This may be sent to L S G Br for further action as such questions are dealt with in that Branch Sales

I have the honour to be,
Sir,
Your most obedient servant,

KRR 2

Letter No B C , dated 5th January 1948, from the Bio-Chemist, Agricultural Department, Bangalore, to the Deputy Commissioner, Kolar, Copied to the Director of Agriculture in Mysore, Bangalore

-oOo-

I have the honour to state that during the past three years several attempts were made by this Section to have the Town Compost Scheme introduced in Kolar Town A feeble response was made by the Municipal Council to have a small scale operation conducted for six months from July 1946 to December 1946 as an experimental measure But suddenly the Council reverted to the old system from January 1947 This system was to give away the very valuable manure collections free with the additional payment of Rs 30/- per cart for 8 carts for the transport of collected refuse materials out of town It could be imagined that a sum of nearly Rs 3,000/- is being wasted by the Municipality annually, from out of the general revenues very much to the benefit of the supplier of transport without any return to the Municipality

During the experimental period stated above, a total quantity of about 400 tons of compost was prepared and auctioned They fetched a revenue of Rs 850/- The extra cost incurred by the Municipality amounted to only Rs 700/- leaving a profit of Rs 150/- With sufficient care and economy the margin of profit might have been increased However, the experiment has shown clearly that the adoption of the Scheme could convert a source of expenditure into a source of revenue I also understand that the Assistant Bio-Chemist who had an interview with you at Kolar on the 23rd ultimo had the pleasure of personnaly, acquinting you with the unwillingness on the part of the Municipality to introduce the Scheme even this year as the right of collection and transportation of refuse has been given away, in spite of having addressed the Municipal President on this subject in good time

About 75 Town Municipalities all over the State have taken up this Compost work so far, and Kolar is the only District Headquarter Town where the work is not taken up on a permanent basis

I have the honour, therefore, to request that you may be pleased to influence the Municipal Council to adopt the Scheme and render all the help needed to solve the problem of manure shortage that is facing

the country at the present moment
